

#EFFICIENCYFIRST COMMUNITY ENERGY FORTNIGHT IDEAS - SUPPORT - SHARING

1

Share how you provide energy efficiency advice

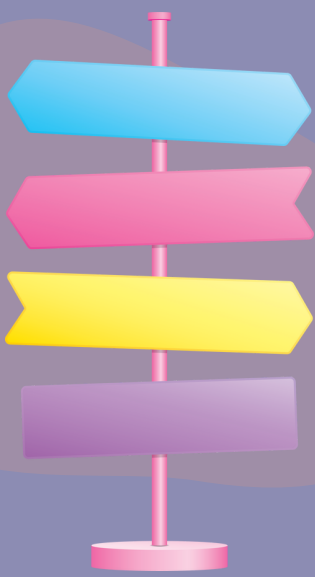

If you're already supporting your own members by providing energy efficiency advice, consider sharing what you do during Community Energy Fortnight.

2

Signpost your members

Funding information & free support for individuals is available from [Home Energy Scotland](#), and for local SMEs from [Business Energy Scotland](#).

3

Use your voice

Got an image or comment to highlight energy efficiency? (Or lack of?) Share it! Any activity or event you have planned will speak volumes when shared using the hashtag #EfficiencyFirst.

4

Contact your MSP and MP

The more messages they receive for supporting communities and their members, the more they listen - Invite them to your event! This is also a great way to have your event covered by the press.
